BUILDER PLUS NP

LIQUID LAUNDRY BREAK

Heavy-duty alkaline builder for commercial laundry

GENERAL DESCRIPTION

A blend of heavy-duty alkaline builders, sequestering agents and soil-suspending agents. Supplies additional cleaning power to release difficult soil and grease stains, while helping prevent released soil from redepositing on fabric. May be used in a separate break cycle or with a compatible liquid laundry detergent.

Do not use on natural silk or wool. Avoid contact with aluminum.

TYPICAL PROPERTIES

Composition	Potassium-based alkaline builders
Appearance	Clear liquid
pH	14
pH, 1% solution	12.7
Specific gravity	1.36 (11.32 lb/gal)
Penetration	Immediate
Solubility	Complete and fast
Biodegradable	Yes
Rinsing	Complete
Foam	Low
Stability	1 year at ambient temperature
Total alkalinity	25%

DIRECTIONS FOR USE

Dispense directly from the shipping container through an automated laundry injection system. Use with compatible liquid laundry products in a tailored wash program.

Normal soils: 4-8 ounces per 100 pounds of work.

Optimum soil release: 140-160°F.

Separate break cycle: 4-8 minutes, depending on soil and water conditions.

HANDLING PRECAUTIONS

Highly alkaline liquid.

Keep out of reach of children.

Avoid skin and eye contact. Harmful if swallowed. Consult the current product label and Safety Data Sheet (SDS) for protective equipment, handling and first-aid instructions.

PACKAGING

5-gallon pail • 15-gallon pail • 30-gallon drum

Technical values and use rates transcribed from the supplied product sheet.
